

Corn

LS Siliciiana

Very early Corn

- ✓ **Very early hybrid**
- ✓ **Very good yield – very good quality silage**
- ✓ **Very good digestibility**

IDENTITY

Genetic	Double hybrid
Type	Flint -so flint
Market	Silage
Earlyness	Very early – FAO 170
Registration	2019 - European Union

AGRONOMIC PROFILE

Early vigor	
Morphology	
Plant height	
Ear insertion	
Dry down	
Lodging resistance	

TECHNOLOGIC PROFILE

Feeding value	
Digestibility	

CROPPING ADVICE

Plant between 100 000 and 110 000 seeds / Ha
